DOG OBEDIENCE TRAINING

FOUNDATIONS OF OBEDIENCE

At Zoom Room, our obedience training programs start with the fundamentals—teaching basic manners that form the cornerstone of good behavior. You and your dog will work closely as a team, using positive reinforcement to communicate clearly and effectively. As your skills progress, our classes evolve to include more complex challenges such as distractions, off-leash work, and advanced handling techniques, ensuring comprehensive training.

We are committed to using only positive, reward-based training methods. These techniques are not only highly effective but also simple enough for every family member to understand and apply. To keep both you and your dog engaged and excited about learning, we incorporate innovative games and activities into our curriculum. This approach ensures that training is not just educational, but also enjoyable, fostering a deeper bond between you and your dog while enhancing obedience both in and out of the classroom. Join us at Zoom Room to build a foundation of obedience that will last a lifetime.

PUPPY TRAINING CLASSES

EXPERT PUPPY TRAINING PATHWAYS

At Zoom Room, we're not just experts in puppy training—we literally wrote the book on it. Our guide, "Puppy Training in 7 Easy Steps," is America's #1 best-selling dog training book, and we bring that same level of excellence and detail to our in-person classes. Located conveniently near you, our Zoom Room facilities offer an ideal setting for early socialization and foundational training for your puppy.

For the youngest pups, our Puppy Preschool (ages 2-4 months) provides a safe, clean environment with floors and equipment sanitized to veterinary standards. This ensures that even before your puppy has completed their vaccinations, they can start learning in a secure setting, following the American Veterinarian Society of Animal Behavior's guidelines for early socialization.

As your puppy grows, they can graduate to our Puppy Training+ (ages 4-8 months), a diverse and comprehensive program that includes elements like puppy agility. This training is specifically designed to be gentle on developing joints, while significantly enhancing balance, coordination, confidence, and communication skills. Enroll your puppy at Zoom Room, and give them the best start in life with our expert-led training pathways.
